**Preliminary Conceptual Planning Maps**

Jon Blanchard discussed possible uses for North Salina, which included an exposition center, community justice center, elementary school, park, dog park, bicycle trail, arboretum/botanical garden, public safety station, branch library and community center.

He also displayed and discussed a map of North Salina with overlays of property values for each parcel, traffic patterns, density of houses, possible roundabouts, creation of a linear park by closing Hamilton Street and closing the ends of some streets to form neighborhoods.

Jon was complimented on the details of his work and praised for the many hours he spent preparing the drawings.

There was some discussion on how to involve residents of North Salina in this planning. Perhaps three meetings should be scheduled, one each to target people who own property (not renters), business owners and managers, and landlords.
